## EDUCATION

---

### University of Utah, Full Stack Flex

*Coding Bootcamp*

Salt Lake City, UT  
*April 2018 - October 2018*

- Built several dynamic end-to-end applications in the MERN stack from scratch
- Collaborated extensively with a group in the design, creation, testing, and presentation phases of development
- Studied and implemented industry design patterns for styling, readability, and functionality
- Handled development when multiple projects had overlapping deadlines

### Salt Lake Community College, *Associates of Science*

- Overall: 3.60 GPA

Salt Lake City, UT  
*May 2016*

## EXPERIENCE

---

### Cascade Refining Inc.

*Purchasing and Sales Assistant Manager*

Salt Lake City, UT  
*March 2014 - Present*

- Identified issues with Microsoft Office and restored functionality, retaining previous workflow
- Expanded network capabilities by providing basic tech support for the company which resulted in smoother internal operations
- Installed network cards on machines that improved connectivity for company advertising
- Tracked down lost transactions not properly archived, saving the company thousands of dollars

*Purchasing Agent*

*March 2010 - March 2014*

- Performed extensive chemical testing to verify quality of metals for purchase, such as gold, silver, and platinum
- Filed purchase invoices, ensuring consistency between paper trail and computer system
- Finalized gold check before the melt, validating the inventory status
